

Kerry Convention Bureau Green Procurement Policy

Kerry Convention Bureau’s Green Procurement Policy is a process where we seek to source goods, services or works produced in a way that minimises social and/or environmental damage. We commit to promoting green procurement, in order to support our Sustainable Destination strategy and to align with both Ireland’s environmental and wider sustainable development objectives and the United Nation’s Sustainable Development Goals.

Kerry Convention Bureau endeavours to minimise the environmental ‘footprints’ of our procurement activities by purchasing products and services that cause minimal adverse environmental impacts while offering high quality products and services at competitive prices.

As a small company, our procurement is on a small scale, but our first objective is to always to buy local where possible to reduce air miles and carbon impact on the environment.

What we buy and from where:

Items Procured	Location
Office Supplies	Killarney Printing (Local)
